Master Shield of [REDACTED]
[REDACTED]
[REDACTED]

Attn: [REDACTED]

Subject: Master Shield Gutter Protection Systems

To Whom It May Concern:

This letter is to confirm that the installation of Master Shield Gutter Protection Systems will in no way effect the GAF Materials Corporation limited shingle warranty, providing none of the fasteners penetrate the face of the shingles creating a leak. When the Master Shield product is installed we recommend that all shingles that have been lifted be resealed with roof cement to remove potential for blow off once the thermal sealant strip on the shingle has activated.

If you have any further questions feel free to contact this office at 1-800-ROOF-411.
Thank you for choosing GAFMC Roofing systems.

Sincerely,

John Wheeler
Senior Technical Service Representative
GAF Material Corporation / US INTEC

IT MAKES SENSE AND IT WORKS!
